ACG Press Release 2009-12-02

ACG SECURITY GROUP CORP. ANNOUNCES NEW MARKETING NAME FOR SENSOR TECHNOLOGY

Vancouver, BC - 09-12-02: ACG Security Group Corp. has announced today the commercial naming of the new radiation sensing technology that has been under development. The technology will be known as **v-RAID**® with the acronym standing for **V**isible **R**adiation **A**cquisition and **I**maging **D**etection. The **v-RAID**® technology is a first-of-its-kind radiation technology to both identify the source of radioactivity and to give a digital image of its location. This technology is ideal for both security applications and medical devices and, according to spokesperson and ACG Security Group Corp. President Paul Paulson. He further adds that the **v-RAID**® technology has been prototyped and is nearing completion for commercialization.

ACG Security Group Corp. is a Canadian registered corporation. Material in this press release is intended for informational purposes only to convey to the public progress on the company's activities. It does not constitute an offer for the sale of securities and is not presented as a prospectus nor a solicitation for the sale of securities.

This release includes forward-looking statements that are made pursuant to the "safe harbour" provisions of the Private Securities Litigation Reform Act of 1995. While these statements are made to convey to the public the company's progress, business opportunities and growth prospects, readers are cautioned that such forward-looking statements represent management's opinion. Whereas management believes such representations to be true and accurate based on the data and information available to the company at this time, actual results may differ materially from those described. The company's operations and business prospects are always subject to risk and uncertainties.
