ACG Press Release 2009-12-04

ACG SECURITY GROUP CORP. UPDATE ON PATENT PROTECTION OF V-RAID[®] TECHNOLOGY

Vancouver, BC - 09-12-04: ACG Security Group Corp., in conjunction with it's US partners and nuclear physicists, has applied for core technology patent protection in Canada. Further to this step, ACG Security Group Corp. is filing related patents and requesting Industrial Design and IC Topography protection from the Intellectual Property Office. According to a spokesperson for ACG Security Group Corp., "it is vitally important that we have these further protections in place as we actively seek to market this product." The asset value of these patents and technology has not been released at this time, however it is expected that an announcement regarding valuation will be released shortly.

ACG Security Group Corp. is a Canadian registered corporation. Material in this press release is intended for informational purposes only to convey to the public progress on the company's activities. It does not constitute an offer for the sale of securities and is not presented as a prospectus nor a solicitation for the sale of securities.

This release includes forward-looking statements that are made pursuant to the "safe harbour" provisions of the Private Securities Litigation Reform Act of 1995. While these statements are made to convey to the public the company's progress, business opportunities and growth prospects, readers are cautioned that such forward-looking statements represent management's opinion. Whereas management believes such representations to be true and accurate based on the data and information available to the company at this time, actual results may differ materially from those described. The company's operations and business prospects are always subject to risk and uncertainties.
